## This is what I believe:

It is crucial that **people with disabilities live independently** and participate fully in all aspects of life.

Caring for Minnesota's most vulnerable citizens is a **core government service**.

Funding of these services depends on the legislature, so I favor candidates who **support adequate funding** of these services.

**I'd like to be a resource for you in the future.** Please let me know if you'd like to hear more about disability services.
